

Hannah Glasser

Software Engineer
Atlanta, GA | (770) 367-7219

github.com/hglasser | linkedin.com/in/hannahrglasser | hrglasser94@gmail.com

Full-stack software engineer with strong communication skills, a deep love for problem solving, and the ability to quickly learn new technologies. Prior to learning software development, I worked as a paralegal at Kitchens Kelley Gaynes, P.C. handling a large caseload in the fast-paced environment of Landlord Tenant disputes and contract litigation.

Technologies

JavaScript, Node.js, React, Express, Redux, Python, RESTful API, PostgreSQL, AWS, Flexbox, Bootstrap, HTML, CSS, Git

Projects

In Your Fridge | github.com/hglasser/In-Your-Fridge September 2018

- Web application that allows users to search for recipes based upon a limited list of ingredients. The backend contains the user's information, their stored staple ingredients, and their favorite recipes.
- Built with HTML, CSS, Bootstrap, JavaScript, jQuery, Node.js, Express, PostgreSQL, AWS, JSON Web Tokens, Spoonacular API, and fetch-node

Tonely - Tweet Sentiment Analysis | github.com/achoi2/Tweet-Sentiment-Analysis August 2018

- Web application designed to analyze tone percentages of drafted tweets so that companies can establish a consistent tone amongst all customer service representatives with access to their Twitter account.
- Provides a requirement for peer review in which tweets may not be submitted to Twitter unless they have been approved by a second member of the team.
- Built with HTML, CSS, Flexbox, Javascript, jQuery, Firebase, Chart.js, noUiSlider, and IBM Watson Tone Analyzer API

Photo Gallery | github.com/hglasser/photo_gallery July 2018

- Website that displays a static list of photos, and allows the user to interact with a modal to display the photos and associated captions one by one.
- Built with HTML, CSS, SCSS, JavaScript, and jQuery

Penguin Puzzler | github.com/hglasser/my_pygame July 2018

- A classic puzzle game in which the user must make it to the end of three courses varying in difficulty to win.
- Built with Python and Pygame

Employment

Kitchens Kelley Gaynes, P.C. | Paralegal | Atlanta, GA August 2016 - February 2018

- Worked closely with my fellow litigation paralegals, assistants, and attorneys to successfully meet deadlines, communicate effectively with court officials and opposing parties, and quickly produce, review, and submit legal documents to the appropriate court.

Fieldale Farms | Management Trainee | Cornelia, GA January 2016 - July 2016

- Managed departments ranging in size from just 1 to over 40 employees at a time with various language barriers, job requirements, regulations, and overall production goals.

Education

DigitalCrafts | Full-Stack Immersive Program | Atlanta, GA June 2018 – October 2018

- Immersive software training program spanning 16 weeks and covering full-stack development, focusing on Javascript, Python, HTML, CSS, jQuery, Node.js, Express, React, PostgreSQL and much more.

University of Georgia | B.S.A. in Poultry Science | Athens, GA August 2012 - December 2015
